

**FOR IMMEDIATE RELEASE**

January 7, 2019

The Bath Township Fire Department is excited to announce that we have partnered with the Bath Township Fire Department Foundation, Inc., a 501 (c) 3 charitable organization.

The purpose of the Bath Township Fire Department Foundation, Inc. is to provide helpful assistance to the members of the Bath Township Fire Department and the Bath Township community, with a focus on training, education, and professional development; this foundation will serve to improve and enhance the overall service provided by the fire department to its residents, businesses, and visitors.

The Bath Twp. F.D. Foundation Board is made up of seven members, three from within the department and four representing our community. The board meets regularly to discuss current needs of the firefighters and to review the financial activity of the foundation.

Residents may receive a mailer in the coming days explaining more about the Foundation as well as a voluntary donor form. The fire department wishes to assure the community that this is a legitimate charity and is endorsed by the fire department and the township. Please note, that the Foundation does not make phone calls to residents soliciting funds.
