

# Bath Township Fire Department

## Run Statistics for Large Commercial, Industrial, and Educational Assemblies – 2024

**Prepared by:** Chief Joseph Kitchen and Inspector Ken Meyer

### Overview

This report outlines the emergency run statistics for Bath Township Fire Department during the year 2024. It highlights calls to large commercial, industrial, and educational facilities within the jurisdiction.

### Call Volume Summary

1. Bath Township Fire Department: 17 (Primarily walk-in EMS patients requiring emergency care for sickness or injuries at the station.)
2. Spartan Nash: 5
3. Dana Corporation: 3
4. Procter & Gamble 67: Includes calls to the main plant on Reservoir Road, Welcome Center/Trucking Division on Thayer Road, and the Supply Warehouse (formerly Distribution Center) on Cool Road.
5. Ford Motor Company – Lima Engine Plant: 27
6. Allen County Board of Developmental Disabilities: 24 - Includes calls to Marimor School and Marimor Industries.
7. Bath Local Schools: 15 Includes the elementary, middle, and high schools, as well as the stadium and athletic facilities on campus.
8. Ohio State University – Lima Campus / Rhodes State College: 13
9. Nelson Packaging: 13
10. Nickles Bakery: 5
11. PPG / MetoKote: 3

## Observations

- Procter & Gamble had the highest volume of calls (67), spread across multiple facilities, including manufacturing, transportation, and warehouse locations.
- Ford Motor Company – Lima Engine Plant and Allen County Department of Development also reported high call volumes (27 and 24, respectively), reflecting the demands of large industrial and special needs populations.
- Educational Facilities accounted for a significant number of calls, with 15 runs to Bath Local Schools and 13 to Ohio State University and Rhodes State College combined.
- Smaller facilities, such as Spartan Nash, Nickles Bakery, and PPG/MetoKote, had minimal call volumes but remain critical locations for emergency response.

## Conclusion

The data provides valuable insights into the distribution of emergency calls across Bath Township's key commercial, industrial, and educational facilities. It underscores the department's role in addressing both EMS and fire-related incidents for our diverse community.
